Compliance, IT and Data Protection M.B.A. - Hof University — Hof University

In addition to traditional knowledge transfer, you will learn agile and hybrid approaches to project work, which you will try out directly in the modules of the Master's programme. Experienced lecturers from academia and practice will prepare you professionally and personally for the challenges of everyday work as a compliance officer, data protection or anti-corruption officer, project manager or technical expert in the private sector, in associations or in public administration.

Theinterdisciplinary project master's programplaces particular emphasis onin-depth, practice-oriented qualifications. This is demonstrated by the completion of a project and a master's thesis.

Content of the modules

The accredited part-time master's programme combines the fields of compliance, IT and data protection as areas of expertise for students who aspire to a project-oriented career.

The interdisciplinary project master's degree in Compliance, IT and Data Protection provides you with in-depth knowledge that you can immediately apply to projects, qualifying you to work as a project manager or subject matter expert in business and government.

Blended Learning concept

The interdisciplinary master's programme "Compliance IT and Data Protection" uses the blended learning method. By combiningface-to-face sessionsin Würzburg withself-directed online learning units, the advantages of face-to-face and self-study are used to provide high-quality teaching with the greatest possible flexibility.

The practical blocks in Würzburg focus on systematic familiarisation with new content, personal discussion and debate with lecturers and fellow students.

Inself-study, you will work on specially designed online modules with preparatory and follow-up learning materials at a time and place that suits you best. Video tutorials allow you to

interact with your tutors.

Compliance, IT und Datenschutz

Summer semester: November 15 - January 15

Winter semester: May 01 - July 15
